Subject; Announcement about discontinuance of crystal CM212 series

Thank you very much for your continual support for CITIZEN FINETECH MIYOTA and Crystal devices.

Today, we have to inform you that we have decided to discontinue our CM212 crystal oscillator series and stop to comply with customer's order of CM212 crystal series.

At the start of releasing CM212 series, we planned that it would be a competitive price and spec according to the internal integrated production.

However as a result of exposure to price competition with some competitors, the price has come down substantially faster than we predicted.

It is a part of reconstruction of our business as we judge it is difficult to keep our production running under the recent and long-term circumstances.

【CM212】

CM212*****

We will be closing to accept any order of CM212 crystal units series on **31/July/2014** and provide CM212 series until **30/Sep/2014** for only outstanding orders.

If you have any questions, please feel free to contact us.

Yours faithfully,

Sales Department
