MAGNETICS

Bourns® Model 2100LL, 2200LL and 2300LL Series Toroid Inductors

Change to Part Number Marking Tape

Riverside, California – November 30, 2021 – Effective April 16, 2022, Bourns will change the tape used for the component part number marking label from epoxy film electrical tape to polyester film/polyester web film electrical tape for the [Model 2100LL](#), [2200LL](#) and [2300LL](#) Series Toroid Inductors. The tape manufacturer has obsoleted the existing tape, necessitating this change. The replacement tape has similar characteristics to the current tape. A list of affected part numbers is included on the next page.

Current Tape

Replacement Tape

The form of the affected inductors will be changed due to the change in tape. The fit, function, quality and reliability of the affected inductors remains unchanged. Samples of the new tape are available upon request.

Implementation dates are as follows:

- Date that products with the existing tape will cease: **April 16, 2022**
- Date that deliveries of products with the new tape will begin: **April 17, 2022**
- First date code using the above changes: **2216**

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).

Users should verify that the described changes will not impact the performance of the product in their specific applications.
